AI Visibility (GEO) Service for Your Agency

JiLai AI Tech · September 2026

The opportunity

More and more buyers ask ChatGPT, Perplexity, Gemini or Google AI Overviews directly instead of searching on Google. These tools give one answer and cite only a few sources, usually 3 to 5. If a company isn't in that answer, it doesn't exist for that buyer.

Most of your clients don't yet know what AI says about them. This is a chance for your agency to offer a new, measurable service with monthly revenue.

What the service includes

JiLai AI Tech provides the technology and AI analysis. Your team focuses on marketing, which is what it already does best.

Every month, for each client, your agency receives:

- **GEO dashboard:** GEO score, AI share of voice, visibility on each AI engine and comparison with competitors.
- **Results per question:** what buyers ask and whether each AI engine cites or mentions the client.
- **Sources AI uses:** the websites AI cites most in the client's industry, to guide PR work.
- **Incorrect facts check:** what AI gets wrong about the client and where the error comes from.
- **Action plan:** prioritised tasks, explained step by step, with an owner and estimated effort.

JiLai AI Tech	Your agency
Monthly analysis across AI engines	Content: guides, FAQs, articles
Dashboard and report for each client	PR, directories and reviews
Diagnosis and action plan	Social media and communities
Technical support (structured data, AI crawlers)	Client relationship and reporting

The service is white-label: your clients see your agency's brand.

How it works

A new client gets their first report in about 2 weeks.

Step	What happens	Timing
1. Onboarding	Your agency shares the client's website, services, area and 3–5 competitors	Day 1
2. Questions	We prepare the questions buyers ask and review them with you	Week 1
3. First analysis	Full audit, GEO dashboard and first action plan	Week 2
4. Monitoring	New analysis and updated plan every month to measure progress	Monthly

AI results vary with question wording and over time. That's why we measure month-to-month trends and don't promise guaranteed positions. Improvements usually start to show within 2–3 months.

Plans and pricing

Prices per end client, invoiced to your agency. VAT not included.

Plan	Includes	Price / client / month
Basic	30 questions, 3 AI engines, monthly GEO dashboard	€150
Standard (recommended)	40 questions, 5 AI engines, GEO dashboard, incorrect facts check, detailed action plan	**€275**
Premium	100 questions, 5 AI engines, in-depth competitor analysis, 30-minute monthly review call	€475

Onboarding per client: €400 (one-off). Covers question preparation, competitor setup, the first full audit and the first action plan.

Pricing example for your agency. The price to your client is JiLai's fee plus your team's monthly work (content, PR and social media). Your agency sets its own prices; the team and client figures are guidance only.

Item	Your agency pays JiLai	Your team's work (example)	Your agency charges its client (example)
Onboarding (one-off per client)	€400	€200–600	€600–1,000
Basic plan, monthly	€150	€250–500	€400–650
Standard plan, monthly	€275	€250–1,200	€500–1,500
Premium plan, monthly	€475	€500–1,500	€1,000–2,000

Your team's monthly work under the action plan usually includes 1–4 pieces of content (guides, FAQs, articles), directory and review management, media outreach and community participation.

AI engines analysed: ChatGPT, Perplexity, Gemini, Claude and Google AI Overviews (the Basic plan covers the first three).

Terms

- **Pilot offer:** 50% off the first 2 months for the first client, in exchange for using the results as a case study (with your approval).
- **Volume discount:** 10% from 5 active clients and 15% from 10.
- **Minimum term:** 6 months per client, because GEO results take time to show. Monthly renewal after that.
- **White-label:** dashboards and reports can carry your agency's brand.
- **Ownership:** your agency receives the reports and a licence to use the platform. The platform and methodology remain the property of JiLai AI Tech.
- **Offer valid:** 30 days from the date of this document.

Next steps

1. We choose a first client for the pilot together.
2. We run the first analysis and present the dashboard and action plan to you.
3. If you're happy with it, we extend the service to more clients.
